Energy therapy is a natural method of energy balancing, but is not meant as a substitute for medical, or psychological, diagnosis and treatment. We strongly recommended you see a licensed physician, GP or other licensed health care professional for any physical or psychological ailment whether it be acute or chronic that you may be suffering from or suspect that you may have.

Energy practitioners do not diagnose conditions, nor do we perform medical treatment, prescribe substances, or interfere with the treatment of a licensed medical professional. Energy therapy or any other natural healing therapy should not compete with medical doctors and their treatments. All therapies are meant to complement medical treatments.

In no event can Myrtle Marie Charanza be held liable in any way directly or indirectly for any negative symptoms you feel you have suffered, resulting from information, provided or for the loss of profits through the use or misuse of said information, data or the natural treatment method you _____ have willingly ascribed to.
